

# Dubai Clean Energy Strategy 2050

Dubai plans to attract foreign investment and public-private partnerships to make its clean energy strategy a reality. Dubai Clean Energy Strategy 2050 aims at transforming Dubai into a global clean energy centre by 2050.

## 1 Aim:

To reduce carbon emissions by 16% by 2021 and transform Dubai into a city with the world's smallest carbon footprint by 2050.

**16%↓**

in carbon emissions by 2021

## 2 Goals:

Reduce the share of natural gas in the energy mix to 61 per cent

Increase the portion of clean and renewable energy in Dubai from:

## 3 Dubai Electricity and Water Authority (DEWA)'s initiatives:

**Mohammed bin Rashid Al Maktoum Solar Energy Park**

**Shams Dubai Initiative**

### Dubai Green Mobility Initiative

- To promote the use of electric and hybrid vehicles
- Reduce carbon emissions in the road transport sector
- In March 2017, DEWA announced an increase in the number of electric vehicle charging stations to over 200 stations throughout Dubai
